Steel Can be Made in Alexandria— from Ores of Fauquier County: and from Interests of Alexandria.

To the editor of the Alexandria Gazette: PHILADELPHIA, PA., March 21, 1878.—A year ago you kindly gave me the use of your columns for the discussion of this subject; again I ask a small space. The citizens of Alexandria well know the interest my brother and myself have in developing this great industry. As Bruce tried six times and failed to liberate Scotland, and from seeing a spider try six times and fail to spin its web, and succeeding the seventh, he took courage to try again, and suc ceeded in driving back the armies of England at Bannockburn, so we propose to continue to diligently study this subject, determined finally over all obstacles to succeed. To this end dur ing the past year I have thoroughly posted myself as to the Siemen's direct process of steel manufacture from ores by his revolving cylinders, and during the past week have examined Mr. Charles M. DuPuy's direct method in this city. In conversation with the respresentative of the Siemen's furnace in this city, and with Mr. DuPuy, I am satisfied that either process can successfully be worked in Alexandria by using Fauquier ores and Cumberland coal; in the Du Puy process using Cumberland coal to steam engine and trip hammer to forge the c'usive of the building. You have deserted buildings in Alexandria that can be utilized.

In using the Siemen's process \$40,000 including the cost of buildings, say at \$5,000, will put up three revolving cylinder furnaces with engine and lorge and leave sufficient for working capital, with a capacity of ten tons every twenty four hours. As the profit on this class of blooms-making steel equal to Swedish-is, large it is not extravagant to hope to make a very large showing in dividends at the end of the year.

The agents of the Siemen's furnace, and Mr. Da Pay both nohesitatiogly affirm that under their methods the small per cept. of phosphorus in the ores can easily be eliminated, and affirm that this class of morganiferous magnetic ores are identical in character with the ores of Sweden and very valuable fer steal purposes.

Hoping to be able soon to visit Alexandria and lay before your people the matter more fully, and then to lay the foundation for suc cers. I am respectfully,

WM. G. DOUGLASS. Hazing.

SENATE. In the Senate to day a number of petitions, memoria's, &c., were presented, among them one praying the removal of the tracks of the B. & O. Railroad in Washington from their pres-

ent location. A few bills of no interest were introduced of and referred.

Mr. Dorsey, of Aik., made a personal explanation in reference to charges made against bim, by some New York paper, concerning his action upon a bill granting certain rights to the Arkansas Hot Springs, denying the charges and justifying his action which he said was endorsed by the people of Hot Springs. He pronounced the charge a base falsehood.

Mr. Withers proposed an amendment to the I Post Route bill establishing a post route from | S Black Walout, Va., to Mill Creek, Person G. county, North Carolina.

A resolution directing the Finance Committee to report a bill to repeal the Resumption act within ten days, went over on account of an

to the organization of the proposed territory until the expiration of the morning hour. When the untinished business, the bill to require the Pacific Railroads to establish a sinking fund to liquidate their indebtedness to the Government was taken up, and Mr. Teller ad-

THE TOLEDO POSTMASTER. The Senate Postoffice Committee to day determined to make an adverse report upon the U. nomination of Alex. Reed, as postmaster at Oth Toledo, Ohio. This is the nomination about which there has been so much talk of late, the name of Mr. R. having been sent to four times, Re and Mr. R. being a great friend of the Presi- Cu dent. The adverse report is considered a vic Pr tory for the auti liayes republicans, but in Ch the Senate the report of the committee may be Bil overriden, and with the assistance of the democrats, Mr. Reed may succeed in being con-

A GENTLE HINT. - In our style of climate, with its sudden changes of temperaturerain, wind and sunshine often intermingled in a single day-it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Phuemonia, Severo Coughs, Croup or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial 10c; regular size 75c.
